This thread discusses the Content article: Vauxhall Astra BTCC (FXR)

Hello I love yours skins, they are cool. I have a little issue with uploading my skins, I create my skins in my graphic program, save it as a Jpeg image but I can't understand how to place my skin on LFSR, I followed the uploads instructions but I can't see the skin that I have uploaded, Help me out thanks.

Sorry, been busy as heck with work. What skin was it that you uploaded? I'll dig around and see if I can find it. ;)

Okay, found one of them. Let me know if you submitted more.
